DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Larry E. Henneman, Jr. on 5/20/2005.

The application has been amended as follows: in claim 19 on line 1, the word "failsafe" should be deleted.

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: The prior art of record 6,151,649 (Liong et al) teaches a method and apparatus for automatically detecting power-down disconnection or other failure of a SCSI bus connected device. The prior art of record 6,622,250 (Castillo et al) teaches removing connection between a first section and a second section of a local system bus during a low power mode. The prior art, 5,721,934 to Scheurich, discloses a power strip circuit for providing automatic computer system power features and for providing automatic restoration of power for the computer system and further discloses that the automatic power can be performed in response to a phone call, a keyboard, a mouse, and other user interface devices. Applicant has amended the claims to further limit the

claimed invention as suggested in an interview on 3/8/2005. The arguments presented by applicant in the response filed on 5/6/2005 are persuasive as amended. As stated by applicant, the combination of the cited references does not teach sensing the power drawn by a monitor and in response to the power drawn by the monitor is below a threshold value, terminating a network connection. The prior arts of record taken alone or in combination fail to teach, anticipate, suggest, or render obvious the claimed invention.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carl Colin whose telephone number is 571-272-3862. The examiner can normally be reached on Monday through Thursday, 8:00-6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz Sheikh can be reached on 571-272-3795. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
